COMMUNICATION SERVICE CORPORATION

West Communication Service, Inc. dba **Communication Service Co. (CSC)** is a C7 Low Voltage Systems Contractor and a certified small business in Santa Cruz County providing Structured Cabling services and Low Voltage System Integration throughout Central California, including Santa Cruz County, Monterey County, and the Greater San Francisco Bay Area. CSC can provide design, installation, testing, and maintenance of various Communication Systems and Structured Cabling Systems including Fiber Backbone for retrofit or new commercial properties, and industrial projects both private and public. CSC ensures that its team is equipped with the expertise needed to handle complex projects and deliver high quality results. CSC's strength lies in its commitment to excellence, integrity, continuous improvement, and collaboration. By prioritizing these values, the company consistently delivers high-quality services, fosters strong relationships with clients, and maintains its industry leadership goals.
